PECB BEYOND RECOGNITION

PECB Certified ISO 22000 Foundation

Become acquainted with the best practices of food safety management system (FSMS) based on ISO 22000

Why should you attend?

This training course provides participants with a comprehensive overview of the requirements of an FSMS based on ISO 22000. It outlines the standard's structure and key elements, including the establishment of a food safety policy, leadership and commitment, hazard analysis and critical control points (HACCP), operational planning and control, internal audits, management review, and the continual improvement of the FSMS.

Upon completion of the training course, participants can sit for the certification exam. After successfully passing the exam, they can apply for the "Certificate Holder in ISO 22000 Foundation" credential, which demonstrates their knowledge of the fundamental concepts, principles, and requirements of an FSMS in accordance with ISO 22000.

Who should attend?

TThis training course is intended for:

- Managers and advisors seeking knowledge about the basic concepts and principles of food safety management
- Professionals interested in understanding ISO 22000 requirements and their application
- Individuals involved in food production, handling, or safety-related responsibilities
- Individuals aiming to build a career in food safety management or ISO 22000 implementation

Learning objectives

By the end of this training course, participants will be able to:

- Describe the food safety management concepts and principles
- Explain the main ISO 22000 requirements for a food safety management system
- Identify potential actions and approaches that organizations can use to achieve conformity to ISO 2200

Course agenda

DURATION: 2 DAYS
